Please bear with us...

- Unfortunately, we are particularly short of staff, we have been and are **continuing to recruit to these roles.**
- Over just the last few weeks, we have suddenly **become short of 6 members** of staff that we usually expect to be operating our surgery with. This is affecting us in all areas, clinical and non-clinical.
- This **has been outside of our control.**
- **We are, and will be doing everything we can to minimise the impact upon you.**
- We are having some success with recruiting to these posts, but inevitably notice periods with their existing employers, mean some staff cannot join us quite as quickly as we would like.
- **We would however, appreciate your help and support during this particularly challenged time.**
- **Our doctors and nurses are coming in on their free time** to help provide you with the care you deserve.
- Some of our doctors are changing their sessions, and type of work to cover current gaps.

However there is some really good news ...

We are delighted to have
welcomed Dr Ejaz to our practice,
as a full-time GP,

we look forward to him being with us for the foreseeable future.

We are also delighted to **welcome Dr Holding into our Partnership.**

We will keep you posted of further developments.
